

## **Enterprise Project Director Senior**

**Summary:** The Strategic Technology Solutions (STS) division within the Department of Finance & Administration is implementing a new IT delivery model for its customer Departments. The Enterprise IT Transformation initiative involves building a highly qualified and experienced organization to support our agencies in five business domains through a shared resource delivery model.

The Enterprise Project Director Senior performs work at the enterprise level and across the supported Departments within the Business and Community Development (BCD) Domain. The Enterprise Project Director Senior will provide guidance at a statewide (enterprise) level and be responsible for oversight and management of medium-large enterprise application and infrastructure projects and complex change management efforts. In addition, the Enterprise Project Director Senior will have Project Managers and Business Analysts reporting directly to him/her. In this role he/she will be responsible for leading, directing, coaching a team of Project Managers within the PMO. Projects will require significant governance responsibilities involving multiple divisions. This position will report to BCD's Enterprise Project Director Senior. Duties will include project management (contract management, project management, organizational change management, vendor management / relationships, team building, resource management, risk/issue resolution), leadership (direct and manage, coach and mentor project teams) and implementation of the PMO strategy.

### **Required Experience:**

- Requires an extensive background in managing large, complex programs and projects that cross multiple business units with outstanding interpersonal and communication skills.
- Demonstrated leadership and experience with a focus on team development.
- Excellent communication skills with experience working with all levels in an organization.
- Dedication to customer service focused delivery of IT solutions.
- Strong contract management experience.
- Experience juggling multiple goals, changing priorities and deadlines.
- Strong interpersonal skills with all levels of personnel and demonstrate the ability to motivate employees/teams to apply skills and techniques to solve dynamic problems.
- Effectively develop and deliver formal presentations to C-Level executive stakeholders and/or business process owners. Build consensus and support throughout the project lifecycle.
- Must have a bachelor's degree.

### **Preferred Experience:**

- 10+ years Project Management of large, complex IT developments and implementations.
- Strong IT technical background.
- Experience as software developer or development manager.
- Experience working with Agile software development methods.
- Certification in one of the following: Project Management Professional (PMP), Six Sigma, LEAN, Business Process Management.
